

Watertight Cap w/Screened Air Vent

PREMIUM WATERTIGHT CAP WITH SCREENED AIR VENT - A truly watertight cap which is secured to the pitless casing with a compression gasket. The top of the cap can be removed without affecting the seal, conduit or wiring. It is made of high quality grey cast iron. Painted green and oven dried to produce a durable high quality finish. All our high quality hardware is stainless steel. This model has an addition of a pipe nipple and Monitor stainless steel vent screen. Approved for Illinois, Michigan and Wisconsin.
Conforms to Water System Council PAS-97(04) Standards.

- ◆ Protected Screened Air Vent
- ◆ 24 Mesh Stainless Steel Screens
