

features

- Totally enclosed, chemically-resistant polypropylene housing for corrosion protection
- Encapsulated solid-state electronics for corrosion and shock protection
- Self-cleaning Uni-Valve design maintains prime and prevents scale buildup problems associated with ball valves
- Noise reduction engineering virtually silences the pump, making it ideal for home use
- Pressure relief system stops pump from stroking if back pressure exceeds pump capacity, and thermostatic protection prevents overheating
- Pump includes high-strength PVC Head, Foot Valve, Injection Check Valve, Suction Tubing, UV resistant PE Discharge Tubing, Suction Tubing Straightener, and Bleed/Priming Valve.
- Long stroke lengths and crisp valve action assure accurate chemical feed and help prevent loss of prime
- Turndown ratio up to 100:1 provides unmatched flexibility
