

PUMP CONTROL TANK TEE

MORE VERSATILE THAN CONVENTIONAL TANK FITTINGS

Can be located anywhere in the piping. The pressure switch and gauge can be moved above the floor!

Can be used like a tee with almost any type of tank! Use a 3" or 10" long 1" pipe nipple with most tanks. Costs less to install than most brass tank tees.

1PCF is cast from brass, precision machined.

1PCF2 is precision machined red brass casting will adapt to any 1 inch discharge tank. Tank Tee Head and nipple (not included) are lower in cost than most brass tees.

Pump Control Tank Tee

Order No.	Pipe Size	Control Threads	Tank Connection	No. Per Carton	Wt. Per Carton (lbs.)
